

Heritage Questionnaire:

I agree we need to preserve our history. A heritage assessment needs to be done on the said building as an old building is not necessarily a heritage building.

I feel that it should be up to the individual/owner to apply for a heritage designation. I am unaware of any owner that has not done this, and I think that needs to be taken into account.

I would like to see a heritage master plan developed. I would like to see more property standards reflect the needs of heritage. Perhaps there is a way to turn a heritage area into an economic opportunity.
